**Hardy
Herbaceous
Perennials
Roses and Shrubs**

W. LINWOOD FERNALD

ELIOT, MAINE

[TELEPHONE, PORTSMOUTH, N. H., 307-4]

The Hardy Garden

THE popularity of the permanent HARDY GARDEN PLANTS becomes greater every year. They require comparatively little care when once they are established, and they come up and flower successively year after year. In a garden of them there is something new to admire every day. A bouquet can always be picked among them.

In stately beauty, sweetness and brilliancy of bloom, and in general attractiveness, no other plants can compare with these hardy favorites.

They are the most satisfactory flowering plants for those who can devote but little time and labor to the care and cultivation of any flowers.

Herbaceous Perennials

Price, except where noted, 15c.

\$1.50 per dozen
